1. ~~1.~~ Overview

The Interface Control Document (ICD) contains the protocol for collecting and transferring generator *eligibility* data from participating renewable energy Generating Units to the [Western Renewable Energy Generation Information System \(WREGIS\)](#) application for ~~the purposes of~~ verifying eligibility within specific state/provincial or voluntary renewable energy programs. This Interface Control Document identifies the guidelines and procedures that must be followed ~~in order~~ to ensure accurate program eligibility information is provided to ~~both the p~~Program ~~a~~Administrators, end users that may need to retire WREGIS Certificates, and the Generating Units that are requesting eligibility.

~~Any~~ state, provincial, ~~and or~~ voluntary renewable energy program (Program) ~~and a "State Program Administrator," "Provincial Program Administrator" and "Voluntary Program Administrator" (Program Administrator) that wishes to utilize~~uses WREGIS to track compliance with their program's requirements should follow this protocol ~~in order~~ to interface with WREGIS. This protocol outlines the processes by which a Program will establish and maintain a relationship with ~~the WREGIS program (WREGIS) in order~~ to fully ~~utilize~~ use the ~~available functionality~~WREGIS system (System).

Formatted: Normal, Indent: Left: 0", First line: 0", Space Before: 0 pt, No page break before, Tab stops: Not at 0.3"

2. ~~2.~~ Process Information

WREGIS Program Application

~~The in order to~~ utilize use WREGIS, a Program ~~should must~~ first ~~be~~ registered for a WREGIS Account as a ~~"State Program Administrator," "Provincial Program Administrator" and or "Voluntary Program Administrator" (Program Administrator)~~ Account Holder, following standard registration procedures. ~~It is the sole responsibility of the Program Administrator Account Holder to contact the WREGIS Administrator and initiate change requests. The WREGIS Administrator must approve all change requests and determine budget impacts before any changes or system modifications are implemented.~~

Formatted: Indent: Left: 0", First line: 0", Space Before: 0 pt, No page break before, Don't adjust space between Latin and Asian text, Tab stops: Not at 0.3"

Change Requests and System Modifications

If a Program Administrator determines a need ~~to request for~~ system changes or modifications ~~in order to fulfill their program objectives~~, they ~~administrator~~ should follow the ~~change control process outlined below.~~ ~~The Program may be charged a~~ ~~All data fields relevant to fuel source characteristics, Retirement reason codes, and the ad-hock report generation tool are available to Program Administrators via their WREGIS Account Holder log in.~~

~~If any changes to the system are necessary in order to meet the requirements of the Program, a~~ change fee ~~may be~~ associated with development and implementation costs ~~may be charged to the Program~~. System modifications to data fields, ~~including fuel type, fuel source, and eligibility characteristics, as well as adding additional Retirement reason codes or defining custom reports~~ ~~must be approved by WREGIS.~~

Formatted: Font color: Custom Color(51,102,102), Expanded by 2 pt

~~as required by applicable standard procedures and governing documents the WA. Any other changes including changes to WREGIS policy must be approved by the WREGIS Governing Board. It is the sole responsibility of the Program Administrator Account Holder to contact the WREGIS Administrator (AWA) and initiate change requests. The WREGIS Administrator must approve all change requests and determine budget impacts before any changes or system modifications are can be implemented.~~

Program Eligibility Verification

The following process outlines how ~~a~~ Program Administrators will verify and confirm Generating Unit eligibility claims for their Programs. ~~During registration, Each~~ Generating Unit Account Holders will indicate the programs for which they ~~believe claim~~ they are qualified ~~during registration~~. It is the sole responsibility of the Program Administrators to verify and formally approve qualification claims before the system will officially recognize eligibility and assign the qualification claim to WREGIS Certificates. Updates to ~~program~~ eligibility claims are the ~~sole~~ responsibility of the Generating Unit Account Holders. ~~Updates to program eligibility and associated qualifications are the responsibility of the applicable Program Administrator.~~

~~The~~ Program Administrators will use their WREGIS login and password to access the WREGIS System, and load the eligibility data ~~via html~~ through the designated module in the Program Administrator's WREGIS Account, ~~using one of the two options below:-~~

~~WREGIS staff Administrator encourages the Program Administrator use Option one or two below:~~

Option 1 – Automatic eligibility based on list of generators

- The Program Administrator provides a list of all generators that have been approved/~~unapproved~~ as eligible via an electronic file following a standardized format.
- The Program Administrator imports the list electronically via the ~~if~~ Account log-in, which automatically updates WREGIS with eligibility verification for appropriate generators. (See Sections 3 ~~and~~, 4, and 5 below for details regarding file uploading procedures).

Option 2 – Program Administrator directly verifies eligibility within WREGIS

- ~~Program Administrator logs into WREGIS.~~
- ~~Program Administrator runs a query on Generating Units that indicated they are certified for the PA's program (and in a certain timeframe, e.g., dependent upon the PA's approval cycle, or on WREGIS Certificate Issuance).~~
- ~~Program Administrator reviews the query and researches it against their State approved list~~

Formatted: Keep with next

Formatted: Font color: Custom Color(51,102,102), Expanded by 2 pt

- ~~Within WREGIS, the Program Administrator verifies that each Generating Unit claiming eligibility as entity is or is not certified or not certified, and marks changes as appropriate. (including searching for those units that were not in the WREGIS query but are actively registered in WREGIS and eligible for the program. This might happen because for some reason or other, they failed to mark themselves as "qualified" when they submitted their registration, or sometime after their initial registration, they are now qualified but failed to provide an update).~~
- The Generating Units are solely responsible for contacting Program Administrators to obtain certification.
- WA approves eligibility claim(s) in WREGIS.

The following options need to be approved before they are used by a Program Administrator:

Option 3 – The WREGIS Administrator responds to periodic request for verification reports from PA

- ~~WREGIS Administrator staff runs a periodic query (monthly, quarterly, other) on Generating Units that indicated they are certified for a specific Programs and have not yet been verified.~~
- ~~WREGIS Administrator sends a regularly scheduled report (monthly, quarterly, other) to PA for review and approval~~
- ~~Program Administrator reviews the report and researches it against their approved list~~

~~Program Administrator returns report to the WREGIS Administrator, indicating each Generating Unit as certified or not certified for that period.~~
- ~~WREGIS Administrator receives the certification information and records the certification, or de-certification, for the respective unit's state program(s) eligibility in the system.~~

Option 43 – WA responds to individual email request for verification inquiries

- ~~Program Administrator WREGIS Administrator staff prepares email to the Account Holder and reports to the WREGIS Administrator, indicating each Generating Unit as certified or not certified for that period, and requests proof of program certification(s) OR or WREGIS Administrator staff prepares email to the Program Administrator requesting proof of program certification(s)~~
- ~~Account Holder replies with proof OR or Program Administrator replies with verification.~~

Formatted: Font color: Custom
Color(RGB(51,102,102)), Expanded by 2 pt

- WREGIS Administrator updates WREGIS system with certification or decertification for the respective unit's state program(s) eligibility.

For all Options above, the The sole Program Administrator is responsibility responsible for updating WREGIS with information on decertified Generating Units, and informing WREGIS Administrator of such will reside with the Program Administrator, with the sole exception of automatic decertification based on changes to essential Generating Unit characteristics.

3.3. File Description

For option 1 above, Sections 3 and 4, and 5 provide valuable information that will be used by the Program Administrators who wish to upload eligibility information into WREGIS.

The data shall be in ASCII Text with data fields delimited by commas (Comma-Separated Value (CSV) format). The files have the following general structure:

```
<column1Name>,<column2Name>,...
<column1 Value>,<column2Value>,...
```

If the Column Name(s) and Value(s) do not conform with/to the above specification, WREGIS will indicate a fatal error and the file will not be loaded.

Formatted: Indent: Left: 0", First line: 0", No page break before, Don't adjust space between Latin and Asian text, Tab stops: Not at 0.3"

Table 1: Generating Data File Content Structural Elements

<columnXName>	a human-readable label for the X'th column of CSV data
<fieldXValue>	a value for the X'th column of CSV data. There can be any number of data rows in a file. Data types are not quoted.

Program,Unit ID,Fuel Type,Program Y or N,Certification Number,First Vintage,End Vintage,Misc,Good Thru Date
MM/YYYY,Attribute0 CO,W14,SO1,Y,CO5555,12/2007,12/2009,123abc,12/2009,

Table 3: Example – All Program input file (except California)

Program	Unit ID	Fuel Type	Program Y or N	Certification Number	First Vintage MM/YYYY	End Vintage MM/YYYY	Misc (10 Char)	Good Thru Date MM/YYYY	Close string
CO	W14	SO1	Y	CO55555	12/2007	12/2009	123abc	12/2009	

Null Values

If null is valid as a field value for a given field, the data may be optionally omitted in the file. For example, the following line indicates the last field is null.

-CA,W14,SO1,Y,CA5555,12/2007,12/2009,,12/2009,N,,

Table 4: Example – California input file

Program	Unit ID	Fuel Type	Program Y or N	Certification Number	First Vintage MM/YYYY	End Vintage MM/YYYY	Misc (10 Char)	Good Thru Date MM/YYYY	CA 1	CA 2	Close string
CA	W14	SO1	Y	CA55555	12/2007	12/2009		12/2009	N		

Program,Unit ID,Fuel Type,Program Y or N,Certification Number,First Vintage,End Vintage,Misc,Good Thru Date
MM/YYYY,Attribute0 CO,W14,SO1,Y,,12/2007,12/2009,123abc,,

Table 5: Example – All Program input file (except California)

Program	Unit ID	Fuel Type	Program Y or N	Certification Number	First Vintage MM/YYYY	End Vintage MM/YYYY	Misc (10 Char)	Good Thru Date MM/YYYY	Close string
CO	W14	SO1	Y		12/2007	12/2009	123abc		

32000,,125

Null is not a valid value for any current WREGIS field elements.

4. 4.—Field Definitions

The following sections define the data contained in each-an extract file accepted by WREGIS.

4.1. –State/Provincial/Voluntary Program Extract for WREGIS Generating Units

The program extract provides eligibility information for Generating Units qualified or disqualified from a State, Provincial or Voluntary Program (Program) tracked in WREGIS. This file will be generated and delivered via a State, or Provincial, or Voluntary Program Administrator (Program Administrator). The Program Administrator will use their WREGIS login and password to access the WREGIS System, and load the eligibility data via html through the designated module in the Program

Formatted: Indent: Left: 0", First line: 0", Space Before: 0 pt, No page break before, Don't adjust space between Latin and Asian text, Tab stops: Not at 0.3"

Formatted: Indent: First line: 0", Don't adjust space between Latin and Asian text

Formatted: Font color: Custom Color(51,102,102), Expanded by 2 pt

Administrator's WREGIS Account. [Attributes and their validations are defined for a Program tracked in WREGIS.](#) The fields are as described in the following tables.

Field Name	Data Type	Description
Program	Char(8)	Two-Character abbreviation for the State or Province, or Eight-Character name for Voluntary Program, identifying which Program is being updated by this file
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System—the WREGIS Unit ID
Attribute1	Char(10)	Attribute of the Program being updated by this file
Attribute2	Char(10)	Attribute of the Program being updated by this file
Attribute3	Char(10)	Attribute of the Program being updated by this file
Attribute(n)	Char(10)	N'th attribute of the Program being updated by this file

Table 6: Fields in a Program Administrators WREGIS Account

Attributes and their validation are defined for each Program tracked in WREGIS. Some Programs will have more attributes defined for updating than others, depending on that State/Provincial or Voluntary Program's needs. The current Programs tracked in WREGIS are:

Table 76: Current Programs Tracked in WREGIS

Program Code	Description
AB	Alberta

4.1.2. Alberta All Program Extracts (except California)

The following table describes the fields that represent the eligibility information allowable in the Program extract file related to the Alberta All Programs tracked in WREGIS (except California).

Table 109: Alberta All Program Extracts Fields (except California)

Field Name	Data Type	Description
Program	Char(8)	Program code for the State, Provincial or Voluntary Program tracked in WREGIS
UNIT ID	Integer	Unique identifier for the unit assigned by the WREGIS System – the WREGIS Generating Unit ID
Fuel Type	Char(10)	Fuel type code for the unit as reported in WREGIS
Attribute1	Char(10)	In “Y” or “N”, eligibility status for the CA RPS Program, where “Y” is for Yes, it is eligible, and “N” is for No, it is not eligible (appears on certificate)
Attribute2	Char(10)	Alphanumeric Certification Number (appears on certificate)
Attribute3	Char(10)	In MM/YYYY, the First Eligible Vintage – identifying the first month of eligible certificates, regardless of what certificate says
Attribute4	Char(10)	In MM/YYYY, the End Eligible Vintage – identifying the last month of eligible certificates, regardless of what certificate says
Attribute5	Char(10)	Alphanumeric Miscellaneous field (appears on certificate)
Attribute6	Char(10)	In MM/YYYY, the Good Through Date – identifying when the Generating Unit is no longer eligible in the program
Attribute0	Char(0)	closes string
Field Name	Data Type	Description
Program	Char(8)	Two-letter abbreviation for Alberta – “AB”
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System – the WREGIS Unit ID
Attribute1	Char(10)	In “Y” or “N”, eligibility status for the Alberta RPS Program, where “Y” is for Yes, it is eligible, and “N” is for No, it is not eligible
Attribute2	Char(10)	Alphanumeric Alberta RPS Certification Number
Attribute3	Char(10)	In MM/YYYY, the Good Through Date – identifying when the Generating Unit is no longer eligible in the Alberta RPS program

Formatted: Font color: Custom Color(51,102,102), Expanded by 2 pt

4.1.3 Arizona Program Extract

The following table describes the fields that represent the eligibility information allowable in the Program extract file related to the Arizona Program tracked in WREGIS.

Field Name	Data Type	Description
Program	Char(8)	Two-letter abbreviation for Arizona—“AZ”
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System—the WREGIS Unit ID
Attribute1	Char(10)	In “Y” or “N”, eligibility status for the Arizona RPS Program, where “Y” is for Yes, it is eligible, and “N” is for No, it is not eligible
Attribute2	Char(10)	Alphanumeric Arizona RPS Certification Number
Attribute3	Char(10)	In MM/YYYY, the Good Through Date—identifying when the Generating Unit is no longer eligible in the Arizona RPS program

Table 11: Arizona Program Extracts Fields

4.1.4 British Columbia Program Extract

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

4.1.6 Nevada Program Extract

The following table describes the fields that represent the eligibility information allowable in the Program extract file related to the Nevada Program tracked in WREGIS.

Formatted: Heading 3, Indent: Left: 0.5", Space After: 0 pt, Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Field Name	Data Type	Description
Program	Char(8)	Two-letter abbreviation for Nevada – “NV”
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System – the WREGIS Unit ID
Attribute1	Char(10)	In “Y” or “N”, eligibility status for the Nevada RPS Program, where “Y” is for Yes, it is eligible, and “N” is for No, it is not eligible

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Formatted: Font color: Custom Color(RGB(51,102,102)), Expanded by 2 pt

Attribute2	Char(10)	Alphanumeric Nevada RPS Certification Number
Attribute3	Char(10)	In MM/YYYY, the Good Through Date —identifying when the Generating Unit is no longer eligible in the Nevada RPS program

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Table 14: Nevada Program Extracts Field

4.1.7 New Mexico Program Extract

The following table describes the fields that represent the eligibility information allowable in the Program extract file related to the New Mexico Program tracked in WREGIS.

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Space After: 0 pt, Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Field Name	Data Type	Description
Program	Char(8)	Two-letter abbreviation for New Mexico—"NM"
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System—the WREGIS Unit ID
Attribute1	Char(10)	In "Y" or "N", eligibility status for the New Mexico RPS Program, where "Y" is for Yes, it is eligible, and "N" is for No, it is not eligible
Attribute2	Char(10)	Alphanumeric New Mexico RPS Certification Number

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Font color: Custom Color(RGB(51,102,102)), Expanded by 2 pt

Attribute3	Char(10)	In MM/YYYY, the Good Through Date – identifying when the Generating Unit is no longer eligible in the New Mexico RPS program
-------------------	-----------------	---

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Table 15: New Mexico Program Extracts Field

4.1.8 Montana Program Extract

The following table describes the fields that represent the eligibility information allowable in the Program extract file related to the Montana Program tracked in WREGIS.

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Space After: 0 pt, Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Field Name	Data Type	Description
Program	Char(8)	Two-letter abbreviation for Montana – "MT"
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System – the WREGIS Unit ID
Attribute1	Char(10)	In "Y" or "N", eligibility status for the Montana RPS Program, where "Y" is for Yes, it is eligible, and "N" is for No, it is not eligible
Attribute2	Char(10)	Alphanumeric Montana RPS Certification Number
Attribute3	Char(10)	In MM/YYYY, the Good Through Date – identifying when the Generating Unit is no longer eligible in the Montana RPS program

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

4.1.10 Washington Program Extract

The following table describes the fields that represent the eligibility information allowable in the Program extract file related to the Washington Program tracked in WREGIS.

Field Name	Data Type	Description
------------	-----------	-------------

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 0.63"

Formatted: Heading 3, Indent: Left: 0.5", Space After: 0 pt, Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Font color: Custom Color(51,102,102), Expanded by 2 pt

Program	Char(8)	Two-letter abbreviation for Washington – “WA”
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System – the WREGIS Unit ID
Attribute1	Char(10)	In “Y” or “N”, eligibility status for the Washington RPS Program, where “Y” is for Yes, it is eligible, and “N” is for No, it is not eligible
Attribute2	Char(10)	Alphanumeric Washington RPS Certification Number
Attribute3	Char(10)	In MM/YYYY, the Good Through Date – identifying when the Generating Unit is no longer eligible in the Washington RPS program

- Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab
- Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"
- Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"
- Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"
- Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Table 18: Washington Program Extract Fields

4.1.11 Oregon Program Extract

The following table describes the fields that represent the eligibility information allowable in the Program extract file related to the Oregon Program tracked in WREGIS.

Field Name	Data Type	Description
Program	Char(8)	Two-letter abbreviation for Oregon – “OR”
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System – the WREGIS Unit ID

- Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab
- Formatted: Don't adjust space between Latin and Asian text, Tab stops: Not at 0.63"
- Formatted: Heading 3, Indent: Left: 0.5", Space After: 0 pt, Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

- Formatted: Font color: Custom Color(51,102,102), Expanded by 2 pt

Fuel Type	Char (10)	Fuel type code for the unit as reported in WREGIS
Attribute1	Char(10)	In "Y" or "N", eligibility status for the Oregon RPS Program, where "Y" is for Yes, it is eligible, and "N" is for No, it is not eligible
Attribute2	Char(10)	Alphanumeric Oregon RPS Certification Number
Attribute3	Char(10)	In MM/YYYY, the Good Through Date – identifying when the generating unit is no longer eligible in the Oregon RPS program

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Table 19: Oregon Program Extract Fields

4.1.12 Green-E Energy Program Extract

The following table describes the fields that represent the eligibility information allowable in the Program extract file related to the Green-E Energy Program tracked in WREGIS.

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Don't adjust space between Latin and Asian text, Tab stops: Not at 0.63"

Formatted: Heading 3, Indent: Left: 0.5", Space After: 0 pt, Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Field Name	Data Type	Description
Program	Char(8)	Six-character Abbreviation for the Green-e Energy program – "GREENE"
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System – the WREGIS Unit ID

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Font color: Custom Color(51,102,102), Expanded by 2 pt

Attribute1	Char(10)	In “Y” or “N”, eligibility status for the Green-E Energy Program, where “Y” is for Yes, it is eligible, and “N” is for No, it is not eligible
Attribute2	Char(10)	Alphanumeric Green-E Energy Certification Number

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Table 20: Green-E Energy Program Extract Fields

4.1.13 Ecologo Program Extract

The following table describes the fields that represent the eligibility information allowable in the Program extract file related to the Ecologo Program tracked in WREGIS.

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Don't adjust space between Latin and Asian text, Tab stops: Not at 0.63"

Formatted: Heading 3, Indent: Left: 0.5", Space After: 0 pt, Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Field Name	Data Type	Description
Program	Char(8)	Seven-character name for the Ecologo program—“ECOLOGO”
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System—the WREGIS Unit ID
Attribute1	Char(10)	In “Y” or “N”, eligibility status for the Ecologo Program, where “Y” is for Yes, it is eligible, and “N” is for No, it is not eligible
Attribute2	Char(10)	Alphanumeric Ecologo Certification Number

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab + Not at 3" + 6"

Table 21: Ecologo Program Extract Field

4.1.14 Low Impact Hydro Program Extract

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Don't adjust space between Latin and Asian text, Tab stops: Not at 0.63"

Formatted: Font color: Custom Color(RGB(51,102,102)), Expanded by 2 pt

The following table describes the fields that represent the eligibility information allowable in the Program extract file related to the Low Impact Hydro Program tracked in WREGIS.

Field Name	Data Type	Description
Program	Char(8)	Seven-character Abbreviation for the Low Impact Hydro program—“LIHYDRO”
UNITID	Integer	Unique identifier for the unit assigned by the WREGIS System—the WREGIS Unit ID
Attribute1	Char(10)	In “Y” or “N”, eligibility status for the Low Impact Hydro Program, where “Y” is for Yes, it is eligible, and “N” is for No, it is not eligible
Attribute2	Char(10)	Alphanumeric Low Impact Certification Number

Table 22: Low Impact Hydro Program Extract Field

5.5 File Loading

All files will be loaded via the WREGIS System using a valid Active WREGIS Login and password that is associated with an Active open Program Administrator WREGIS Account of type:

- Qualified Independent Party; or,
- State Program Administrator; or,
- Provincial Program Administrator; or,
- Voluntary Program Administrator

Formatted: Heading 3, Indent: Left: 0.5", Space After: 0 pt, Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't keep with next, Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Don't adjust space between Latin and Asian text, Tab stops: 0.5", List tab

Formatted: Heading 3, Indent: Left: 0.5", Tab stops: 0.5", List tab

Formatted: Indent: Left: 0", First line: 0", Space Before: 0 pt, No page break before, Don't adjust space between Latin and Asian text, Tab stops: Not at 0.3"

Formatted: Space After: 12 pt

Formatted: Space Before: 0 pt, No bullets or numbering

Formatted: No bullets or numbering

Formatted: Font color: Custom Color(51,102,102), Expanded by 2 pt

5.1. Loading Program Extract Files for WREGIS Generating Units

Only Program Administrator Account Holders of type ~~“State Program Administrator”, or “Provincial Program Administrator”, or “Voluntary Program Administrator”, or “WREGIS Administrator”~~ have the ability to load the Program Extract File.

1. Log into the WREGIS Account
2. Locate the Program Eligibilities module and to browse the computer or network for the desired State/Provincial or Voluntary Program Extract file.
3. Select and open the desired file, and select upload it.

~~After logging into their WREGIS Account, this the Account Holder Program Administrator should locate the Update Program Eligibilities module to browse the computer or network for the desired State/Provincial or Voluntary Program Extract file. Select the desired file, and upload it. Wait for WREGIS to validate the file. If the validation is successful, WREGIS clears the WREGIS-Program Administrator's previous eligibility verification information, and writes the updated information into the database, and posts a message to the WREGIS Administrator's messaging module that he or she needs to verify the change. If the validation is not successful, WREGIS does not load the data, and the Program user Administrator will see an error message.~~

Formatted: Indent: Left: 0.25"

Comment [Jr1]: There is a lot missing from this procedure such as how to do both of these things.

The table below lists the validation procedure for the uploaded attribute data file:

Table 2310: Validation Procedure for the Uploaded Attribute Data File

Field	Validation
State/Province	State/Province with a program (including Voluntary) tracked in WREGIS. If the State/Province/Voluntary abbreviation is wrong or not listed in WREGIS, the system rejects the file.
Unit ID	WREGIS Unit ID of the registered Generating Unit. If this ID number does not appear in the Update Program Eligibilities module (meaning that the unit has not assigned the Program Administrator to their unit), the system will reject the file.
Attributes	List of State/Provincial/Voluntary-defined attributes. If the file contains an attribute not defined in WREGIS, the system will reject it.

Formatted: Normal

Formatted: Font color: Custom Color(51,102,102), Expanded by 2 pt
