PSE Codes	<input type="text" value="SCE01"/> (format: abc123,xyz123)
	<input type="button" value="Add PSE Code(s)"/>

Adding NERC Functionality

- If you do not see a PSE code on your account profile, WREGIS WILL NOT be pulling your NERC e-tags (tags can only be pulled going forward)
- If your NERC e-tags are not properly filled out by your schedulers, WREGIS WILL NOT be pulling your NERC e-tags
 - *Required format*

Misc(Token/Value)

RPS_ID	actual RPS ID number and letter suffix
--------	--

Adding NERC Functionality

- The Account Holder will be assessed a monthly NERC Tag Deliverability fee
- If you have questions on any of these issues, contact the WREGIS Help Desk at 888-225-4213

Retirement Process

- In order to utilize NERC e-tags, you must retire RECs for state or provincial compliance
- Check with the state or provincial Program Administrator for instructions on what to name your retirement account to be used for compliance

Retirement Process

- Instructions on opening a new retirement subaccount can be found in the [WREGIS System User Training Slides](#)
- Instructions on selecting certificates to retire can also be found in the [WREGIS System User Training Slides](#)
- For assistance, please contact the WREGIS Help Desk at 888-225-4213

Retirement Process

Retirement

Retirement Process

- Retirement Reasons:
- **In-State/Province Power Purchase:** No NERC Tags are required. System will check to see that RECs selected come from the same state location as the state selected for compliance.
- **Out-of-State/Province Power Purchase:** NERC Tags are required. System will do a location check to verify. Tag quantity selected should cover the RECs quantity for retirement
- **NERC E-Tag Not Required for Compliance:** Not Required bypasses all checks above.

Retirement Process

3) Select NERC E-Tags

Selected	NERC E-Tag	Capacity	Sink Area	Start Date	Stop Date	Generator Name	Point Of Delivery	Balancing Authority	Load Serving Entity	Miscellaneous Field
