

WREGIS Project - Change Control

Change Request Form

Project Issue Request ID: 180	Requested by: Mary Frantz – WREGIS	Type of Change: Generator Report	Date Requested: 03/10/2010 Priority: Medium
--------------------------------------	---	---	--

Title: Generating Unit Registration Reports

Description:
Create downloadable Generating Unit (GU) Registration Reports that contain the GU registration information for all GUs and a hyperlink to the GU registration. One report should be available to the Account Holder for their registered GUs and a full report of all GU registrations for the WREGIS Administrator.

APX Response:
A new WREGIS administrator report and a new account holder report would be developed to display every section of a Generator Unit’s two page registration. Each GU registration section would have it’s own column. Each state RPS eligibility would also have it’s own column. The new account holder report will only display generators in their account. The WREGIS administrator version of the report will display all generators in the system.

Reason for Change:
Having the information more accessible and in one place instead of having to select each unit individually would ease the GU Annual Review Process for the Account Holder. A report of all GUs would ease the GU Approval Process for the WREGIS Administrator.

Consequences of not Implementing Change:

Deliverables: Code – Development of new GU Registration report for WREGIS admin and account holders.

Estimate for Scheduled Release: To be determined.

Cost Impact: Per contract, will be implemented on a Time & Material basis, at \$135/hour.

Coding/Bug Fix/Unit Test: 17 hours, 1 resource
System Test, Regression Test and UAT: 8 hours, 1 resource
Total Cost Estimate: 25 hours, \$3,375.00

Risk & Issues Involved:

- None to our knowledge

External Impacts:

WREGIS Project - Change Control

- None
