Status:

Date Requested: 3/4/2011

Project Issue/Change Request ID (PIR/PCR): PCR - 201

Type of Change/Request:

Title of Change/Request: Adding Generating Unit Name to Technical Feasibility Notifications

Priority: Urgent High Medium Low

Target Date: 4/30/2011

Requested By: Bob Langenberger

Phone Number: 970-461-7481

E-mail Address: Langenberger@wapa.gov

Organization: Western Area Power Administration Rocky Mountain Region

Description:

The notifications indicating "Generation Data Exceeds Estimate of Technically Feasible Generation" do not include the name of the generating unit within the message. The notification only includes the WREGIS Unit ID. Is it possible to include the name of the generator in these notifications?

APX Response:

Rational / Benefit / Need:

Western RMR has 39 generators registered in the WREGIS system. Our generators are hydro-generators which have wide variations in output throughout the year depending on water conditions. So, I receive several notifications each month indicating the "Generation Data Exceeds Estimate of Technically Feasible Generation". Because the generator name is not included in the message, I have to look up the generator name within WREGIS using the WREGIS Unit ID. This takes additional time. Other notifications from WREGIS, such as the Multi-Fuel notices, include the generating unit name. It would be beneficial to add the generator name to the notification so I can quickly validate the data matches my expectations.

Consequences of Not Implementing Change:

Attachments / References:

Generation data loaded for the generating unit (WREGIS Unit ID: W1445) for Vintage 01/2011, exceeds the Estimate of Technically Feasible Generation.

This generating unit is located in the Western Area Power Administration (RMR) WREGIS Account, and has a Reporting Entity of Western Area Power Administration-RMR, and 284 Reporting Entity User ID.

Although the data has been loaded into WREGIS, it will not contribute to Certificate Creation, until it is approved by the WREGIS Administrator.
This email is for your information only and at this point you do not need to take any actions.
The WREGIS Administrator will contact you if further information is required for approval.
